What fruits, vegetables and salad toppings do you love?
Help us build a delicious salad with your favorites!

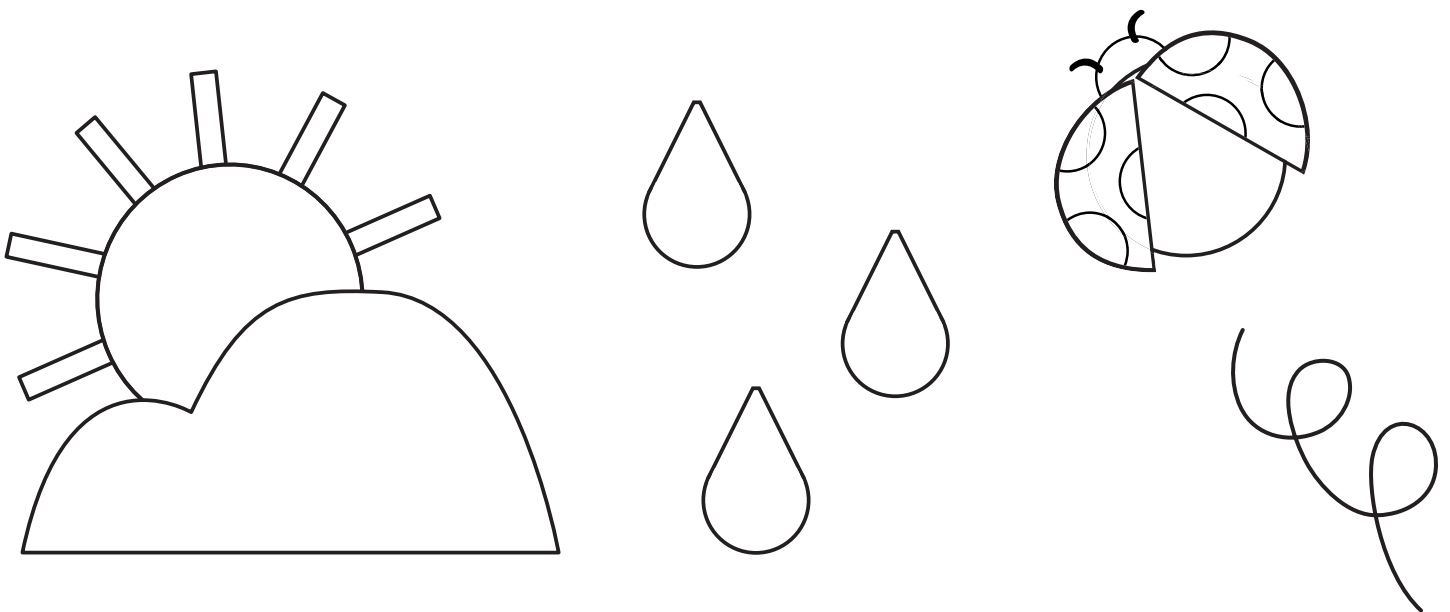

We think cities should be filled with green rooftops.
Help us add some green to this city skyline!

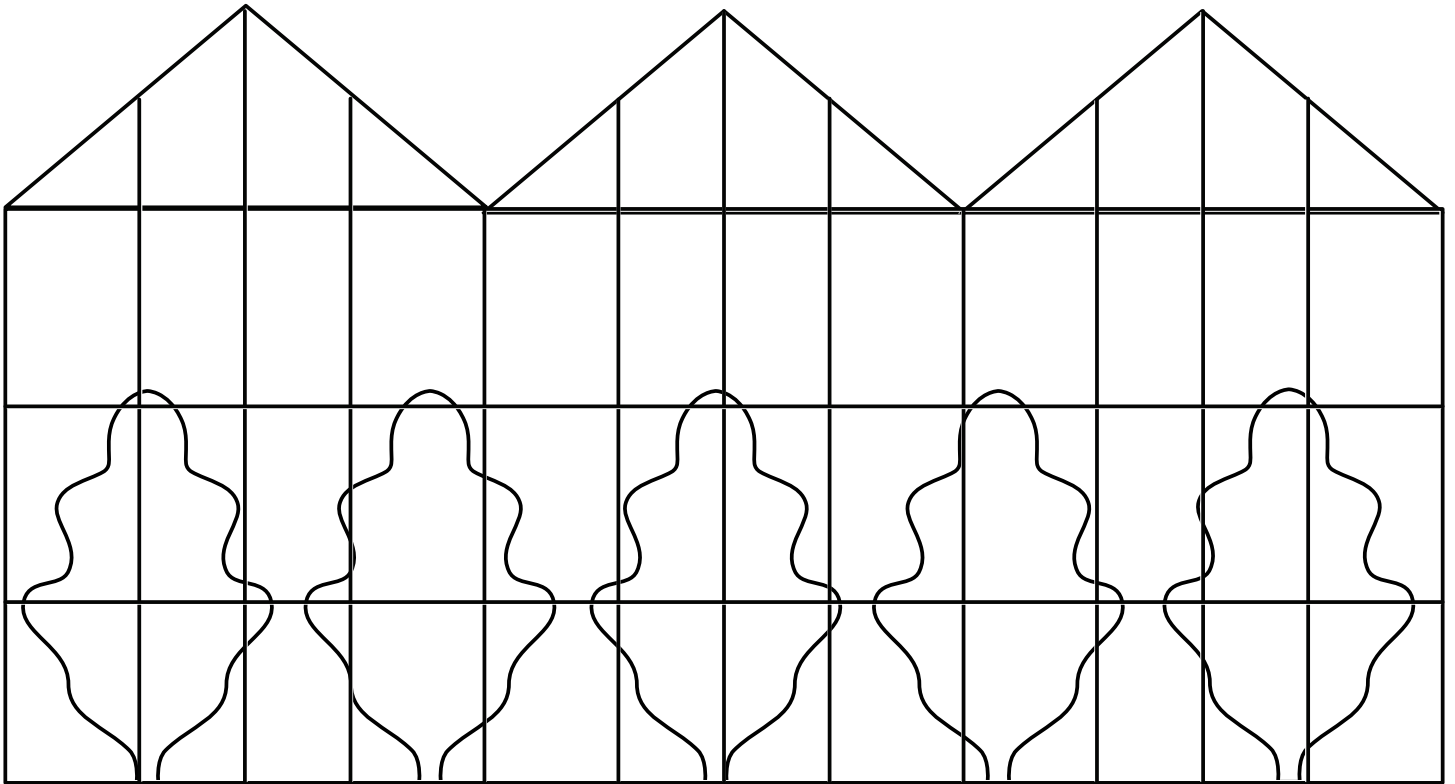

With sunlight, water, nurture and care, a tiny seed can grow into a big, beautiful head of lettuce. Isn't nature pretty neat?

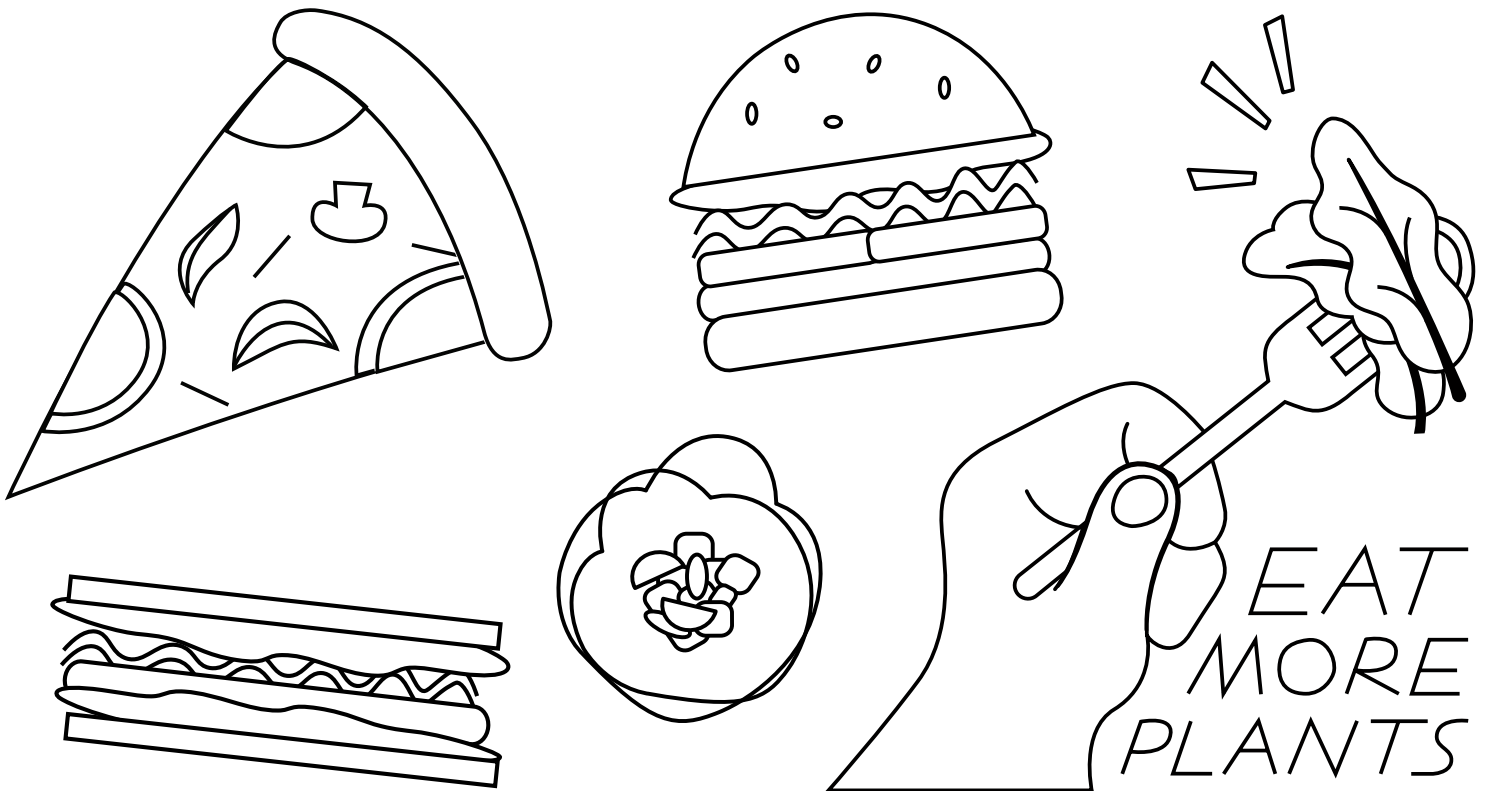

Some of the things that help our plants grow are sunlight, water, beneficial insects and thoughtful farmers.

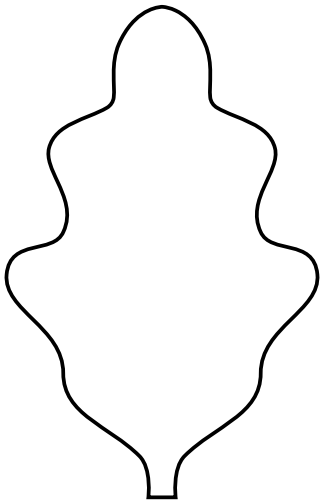

We grow millions of heads of lettuce every year in our greenhouses near you! Help us fill in our farm with delicious plants.

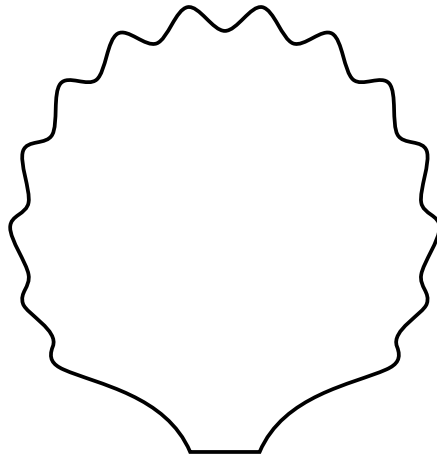

Greens aren't just for salads! Here are some other delicious ways to eat and enjoy your greens. Help us color in these tasty dishes!

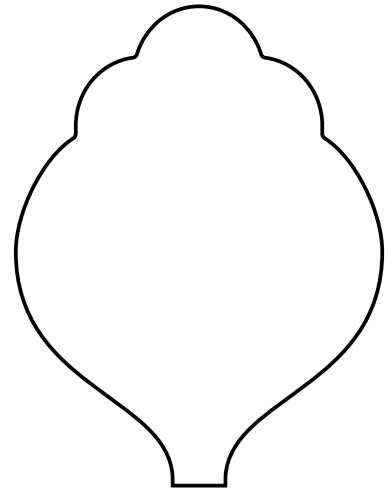

There are many types of lettuces out there! Some are delicate, some are crunchy, some are extra crispy, and some look like tiny trees! Each type has its own taste, texture and personality. Help us give each one a unique look!

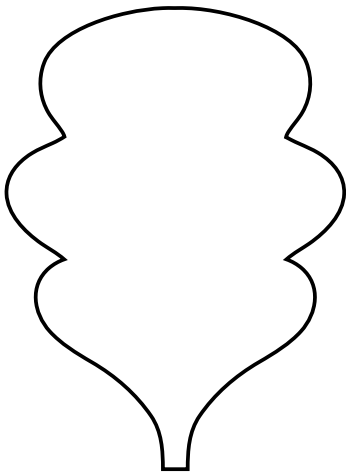

Green Oak Leaf

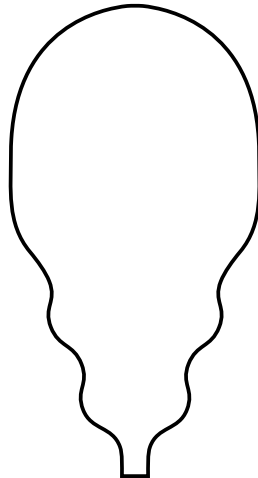

Crispy Green Leaf

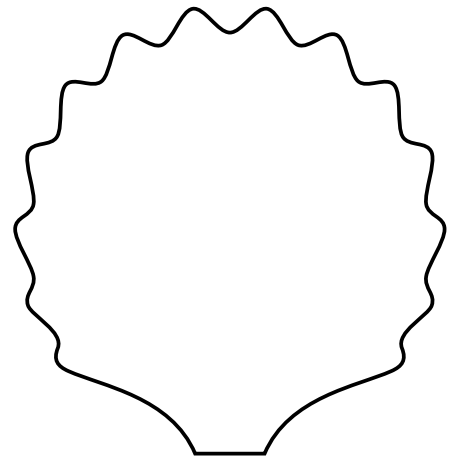

Butterhead

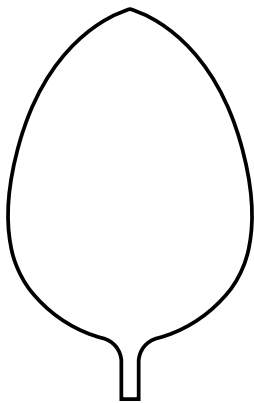

Gourmet Medley

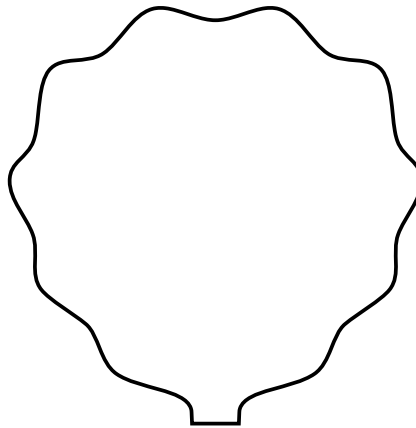

Romaine

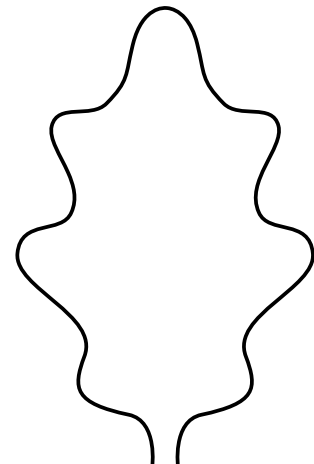

Green Leaf

Basil

Crunch

Red Oak Leaf

Thank you for helping us add some color! You helped us build a beautiful greenhouse, made a delicious salad and filled our city with green spaces.

What are some other ways you like to show the earth love? Do you play outside? Plant seeds? Help recycle and compost? Eat lots of fruits and vegetables?

Draw your favorite ways here!
